SUMMARY

B.Tech student (AI & Data Science, CGPA 8.5) looking to start a career as a Data Analyst. I've worked with real datasets during my internship — cleaning them up, digging into the numbers with Python and SQL, and building charts in Matplotlib and Seaborn to explain what the data was actually saying.

WORK EXPERIENCE

DataValley, Data Science Intern

06/2026 – Present

- Cleaned and prepared 3+ real-world datasets in Python — handling missing values and inconsistent entries so the data was actually usable for analysis.
- Explored the data to find patterns and built a couple of predictive models on top of it, testing different features to see what actually moved the needle.
- Built charts and simple reports in Matplotlib and Seaborn to show what the analysis found, and kept everything version-controlled in Git.

GeeksforGeeks, Campus Mantri

2026 – Present

- Selected as official GeeksforGeeks Campus Ambassador for NBKRIST to drive tech community engagement and awareness on campus.
- Promoted GFG Summer SkillUp programs and coding initiatives via LinkedIn and campus outreach, growing student participation.

EDUCATION

Bachelor of Technology - Artificial Intelligence & Data Science

2023 – 2027

N.B.K.R Institute of Science and Technology, Vidyanagar | CGPA: 8.5

Intermediate - MPC, Sri Vema Junior College

2021 – 2023

CGPA: 95.4

SKILLS

- Languages & Querying: Python, SQL
- Data Analysis & Visualization: Pandas, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)
- Web: HTML5, CSS3, JavaScript
- Databases: MySQL
- CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks
- Tools: Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Subway Surfers Web Game — HTML5, CSS3, JavaScript

2024

github.com/MBhargavi12/subway-surfers-game

- Designed and built a fully functional browser-based endless runner game with 3 game states (start, play, game-over), real-time keyboard event handling, and smooth game loop logic.
- Deployed live on GitHub Pages with 100% uptime; implemented responsive layout and DOM manipulation across 3+ JavaScript modules, maintaining clean version control via Git.

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to SQL — Simplilearn | 10/25
- Infosys Springboard — Basics of Python | 03/26
- Infosys Springboard — Object-Oriented Programming | 04/26
- Intel & Skill India — AI for ALL | 05/26
- Tata Group — GenAI Powered Data Analytics Job Simulation, Forage | 06/26
- Infosys Springboard — Data Structures & Algorithms | 06/26
